EXPERIENCE

Flutter Developer

Apr 2025 - Present

Riota IoT Solutions

- Developed and maintained Flutter applications with responsive UI design.
- Integrated REST APIs and implemented request tracking workflows.
- Worked on debugging, validation, testing, and UI improvements.
- Collaborated with teammates to improve application stability and performance.

Cloud Admin Tracker (CAT)

- Developed the Cloud Admin Tracker application to replace email-based request handling.
- Implemented modules including PO Mapping, Cloud Access, User List, MID Onboarding, Credit Adding, and Machine Access.
- Designed responsive UI screens with proper form validations and reusable widgets.
- Integrated REST APIs for backend communication and request handling.
- Implemented file upload and request management functionalities.
- Performed debugging, testing, and validation before deployment to the company server.

Reconciliation Application

- Involved in testing and validating the Reconciliation Application to identify functional issues.
- Suggested UI/UX improvements to enhance user workflow and usability.
- Collaborated with teammates to resolve bugs and improve application performance.
- Participated in internal testing and quality assurance before deployment.

PROJECTS

Automatic Cooling Control System Using IoT

Jan 2024 - Apr 2024

- Developed an IoT-based cooling control system using temperature and object detection.
- Automated fan speed adjustment based on temperature variations.
- Improved energy efficiency using automation logic.

Syrup Extractor for Blind

Mar 2023 - Mar 2023

- Designed an automated syrup extraction device for accessibility assistance.
- Device dispenses a fixed and controlled quantity of syrup on trigger.
- Achieved approximately 90% precision in controlled dispensing.
- Improved usability for visually impaired users through automation.

Attendance Management System

Oct 2022 - Nov 2022

- Developed using Visual Basic.NET.
- Implemented attendance tracking and user management functionalities.

SKILLS AND INTERESTS

Technical Skills

Flutter, Dart, REST APIs, UI Development, Firebase, Git & GitHub, HTML, CSS, Python

Tools

Android Studio, Visual Studio Code, Postman, Canva, Figma

Interests

Mobile Application Development, UI/UX Design, Photography, Podcasting

CERTIFICATIONS

The Complete Flutter Development Bootcamp with Dart - Udemy (Apr 2025)

Python and Django framework and HTML 5 stack complete course (Jul 2024)

Java Full Stack Course (Feb 2025)

Python - GUVI

Android Application Development Training - NSIC (Jul 2023)

Cybersecurity Course - Coursera (Aug 2020)

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Oct 2020 - May 2024

Annamalai University, Tamil Nadu

CGPA: 7.52/10.00

POSITION OF RESPONSIBILITY

Executive Committee Member - CSI

Aug 2023 - May 2024

Annamalai University

- Coordinated technical activities and student engagement events.

Student Coordinator & Event Manager - COMPSEM

Jan 2023 - May 2024

Annamalai University

- Managed department events and technical activities.
- Coordinated student participation and event execution.
